BRAND INTRODUCTION & VALUES

INTRODUCTION TO THE BRAND

We love the story about the man who followed a river and found his dream. Because it's true. Because it's not just the story of one man, it's the story of us. The story of America. A country built by people with the courage to dream and the conviction to make those dreams come true. By questioning the way it's always been done. By wondering what if. And asking why not. And by knowing that there's another way. A higher road. A way that's right and real. By leading, not following. Making a mark and leaving not just footprints, but blueprints for something better.

PURCHASE ORDER PROCEDURES

PURCHASE ORDER

Purchase order documents will be sent via email to the agent/vendor.

- Purchase Order Examples (page 8-9)

Agent/vendor is to confirm requested ship date within 14 (fourteen) days. If agent/vendor cannot confirm requested dates, we then need to know the confirmed date that the order can be shipped.

VENDOR TRACKER REPORT

Each week, by Thursday, the agent/vendor is to send an updated Vendor Tracker Report with any revised ship dates for all open orders. For footwear, tracker report should be emailed to the footwear Assistant. For non-footwear, tracker report should be emailed to the non-footwear Assistant. This should also include the actual ship date of all Purchase Orders that were shipped the previous week. Once the agent/ vendor confirms the expected ship date of a Purchase Order, this becomes the confirmed ship date. If an order is delayed for more than 14 (fourteen) days from this confirmed ship date, the vendor may be asked to ship this Purchase Order via air at their expense. All orders sent via air at vendor's expense must be sent via Trask Freight Forwarder. Once a Purchase Order is turned over to our Freight Forwarder, the vendor should send via email a copy of the Invoice and Packing list to the Assistant responsible for the category and the Production Manager of Trask.

QUALITY ASSURANCE PROCEDURES & MANUFACTURING STANDARDS

QUALITY ASSURANCE PROCEDURES

The Quality Assurance Department will inspect 2% to 5% of each production shipment. They will inspect for all defects and any variation from standard.

- **MINOR DEFECT** - Any deviation from standard which may not be detectable by the customer and would be something that the agent/vendor should correct for the next shipment of production.
- **MAJOR DEFECT** - Any deviation from standard that the customer would find unacceptable and prevent the sale of the product.
- **CRITICAL DEFECT** - Any deviation from standard that would cause harm to the customer.

Merchandise with minor defects will not be included in the quality audit. The merchandise will be accepted into inventory and the agent/vendor will be notified so that corrections can be made for the next shipment. Major and critical defects will be included in the quality audit and will result in damaged goods. Damages will be charged back to the vendor. Major and critical defects may also result in a 100% inspection of the inventory. The Quality Assurance Department will issue weekly reports of the quality audit.

TRASK FOOTWEAR MATERIAL & MANUFACTURING PROCESS STANDARDS

It is the responsibility of the factory to ensure that both the materials and manufacturing processes meet, or exceed, the standards for our price point of footwear. It is the factory's responsibility to keep on record all applicable lab tests either performed by the factory and/or your suppliers, which certify that our products meet the industry standards. This includes all components, as well as, manufacturing processes. In the event there is a failure in the structural integrity of a product, we will request this information.

We will review new development each season and in certain cases, due to design or performance features, we will establish specific standards for components and processes.

If you have any concerns or questions at any time during the development process concerning the components and/or manufacturing processes, please contact Robert Elferink at (615) 367-8263 relferink@genesco.com or Lauren Belser at (615) 367-7698 lbelser@genesco.com.

PACKAGING & LABELING REQUIREMENTS

For procedures applicable to packaging and labeling, please refer to guidelines in the *Product Category Standards* section of the Genesco Partners website.
Genescopartners.com/trask/trask_product_category_standards.php

To access the Product Category Standards, visit www.genescopartners.com

SHIPPING PROCEDURES

The following shipping documents for production goods, with the exception of goods that are purchased on a landed basis, are required to be turned over to Trask's Freight Forwarder, and a copy should be emailed to the Production Manager and the Assistant responsible for the category.

COMMERCIAL INVOICE

The commercial invoice should contain the name, address and bank information of the vendor. This should include the purchase order number listed with the stock number, quantity and value. The vendor should also send via email a copy of the commercial invoice to the Production Manager and the Assistant responsible for the category.

INTERIM FOOTWEAR INVOICES (IFI)

For footwear, the IFI is an additional invoice required by U.S. Customs. It is used to determine the correct footwear classification. The Assistant prepares the IFI for each new stock number. The IFI is prepared before the Purchase Order is released and the Sourcing Department forwards a copy of the IFI to the vendor. With each shipment, the factory produces a copy of the IFI, signs it, completes the date and forwards a copy of the IFI to the Freight Forwarder. For non-footwear, an IFI is not required.

GENERAL CONFORMITY CERTIFICATION (GCC)

A GCC Form is required for apparel and must be submitted at the time of shipment. Copies of the GCC Form are located within the FORMS section of this site. A GCC is not required for footwear or other non-apparel categories.

U.S. CUSTOM'S IMPORTER SECURITY FILING (ISF/10+2)

An ISF Form must be submitted for all ocean freight shipments prior to shipping. Copies of the ISF Form are located in the FORMS section of this site.

PACKING LIST

The packing list itemizes the contents of the shipment and is generated by the vendor.

1. The packing list must be attached to the first carton of each shipment.
2. A copy of the packing list is to accompany the shipping documents provided to the freight forwarder.
3. An electronic copy of the packing list is sent via email to the Production Manager and the Assistant responsible for the category.

At least two weeks prior to X-Factory contact Freight forwarder to secure vessel bookings.

To access contact information, visit www.genescopartners.com/trask/trask_contacts.php
